

" Growth "

Christopher C. Payne

After years of hard work  
My independence has grown  
Moving onward and upward

Trying to make it on my own  
Life's trials and triumphs  
Have taught me many things

Of how good deeds are rewarded  
By the happiness it brings  
You see happiness is not

Just the accumulation of wealth  
But working and striving  
To better one's self

Like the sun you can shine  
With the brightest of your auroric rays  
Sending positive messages

Shown through your will and your ways  
God has given us all special gifts to use  
Discover it, master it, but do not abuse

One day you'll be challenged  
To make a stand,  
To defy the evil forces  
That has overruled this land
